

THE COMPANY

Wheels2U is a local, family run business operating our mobile alloy wheel repair, refurbishment & respray service across the West Midlands; including Birmingham, Sandwell, West Bromwich, Halesowen, Dudley & the Black Country.

Unlike most other alloy repair companies our customised Mercedes workshops go to the customer so they don't have to lose their car or sit around a garage.

WHAT WE DO

More details about the services we provide and the type of work we perform is detailed on our website: <https://wheels2u.co.uk/>

CONTACT

Carl Adkins

Email: info@wheels2u.co.uk
<https://wheels2u.co.uk/>

MOBILE ALLOY WHEEL TECHNICIAN - ROLES AVAILABLE:

Part-time Support Technician: from £400/week + bonuses

Full-time Lead Technician: from £25k-£30k OTE

Owner: ~£60k-£80k of customer leads/year.

(As an owner you may cover multiple areas & operate as a one or two person team. You will either already have your own van & tools or rent one from us. We will generate the customer enquiries & deal with all the financial/admin paperwork.)

Location: Mobile customer visits around the West Midlands. (~30 mile radius of Birmingham.)

Hours: Flexible depending on how much you want to earn, appointments throughout the week & how you prefer to schedule evening & weekend slots.

EXPERIENCE

Essential:

Previous experience repairing, refurbishing and powder coating/respraying alloy wheels in a body shop, garage etc. is essential.

Obviously, as a mobile business then Lead Technicians also require a full UK (or equivalent) driving licence. Support Technicians (as part of a two person team) should hold at least a provisional driving licence.

Excellent communication & customer service skills are essential because Wheels2U is a family local business not a high volume, sweat shop: we & our customers expect quality work & professional service.

Nice to have:

It would be great if you've also had experience repairing Diamond Cut wheels, performing SMART repairs, car detailing & worked mobile before,

ARE WE A GOOD MATCH?

So; you have the experience & desire but do we share the same values? These are the core values we strive for:

Customer Satisfaction

- Doing your best to make sure that your customer is happy to use us again & would recommend us to friends and family.

Quality Work

- Being proud of the work you have done & always trying to perfect your techniques so your customers will happily recommend Wheels2U to their friends & family.

Personal & Financial Growth

- Always learning, meeting new people and wanting to build a career, not just a job, that makes you happy & financially rewarded.

If you also share these same values then we need to talk!
